

# Vigilance MDR

Customer Focused Managed Detect & Respond

## 01 Humanize Endpoint Security

## 02 Empower Your SOC

## 03 Focus on What Matters

Let Vigilance MDR take the overnight and weekend SOC shifts so that you can relax. No SOC? We are here to monitor & respond 24x7.

SentinelOne's Vigilance Managed Detect & Respond (MDR) service subscription is designed to supplement our endpoint security SaaS offerings. The Vigilance MDR Team is the human side to our AI-based Singularity platform. We are a 100% in-house, non-outsourced Team of Tier-1, Tier-2, and Tier-3 cybersecurity experts monitoring millions of endpoints. We are trusted by many of the largest worldwide brands from verticals that include financial services, manufacturing, government, healthcare, education, and more.

Our mission is to augment customer security organizations by providing a second set of eyes on the events produced by the SentinelOne deployment. Vigilance MDR adds value by ensuring that every threat is reviewed, acted upon, documented, and escalated as needed. In most cases we interpret and resolve threats in about 20 minutes and only contact you for urgent matters.

“ When we were building our SOC, Vigilance was really a no brainer. Although it's a service that will deal with all of your threats, they still fully involve my team, which really is key. It's a true partnership.

Steve O'Connor, Director IT, Aston Martin Lagonda Ltd.

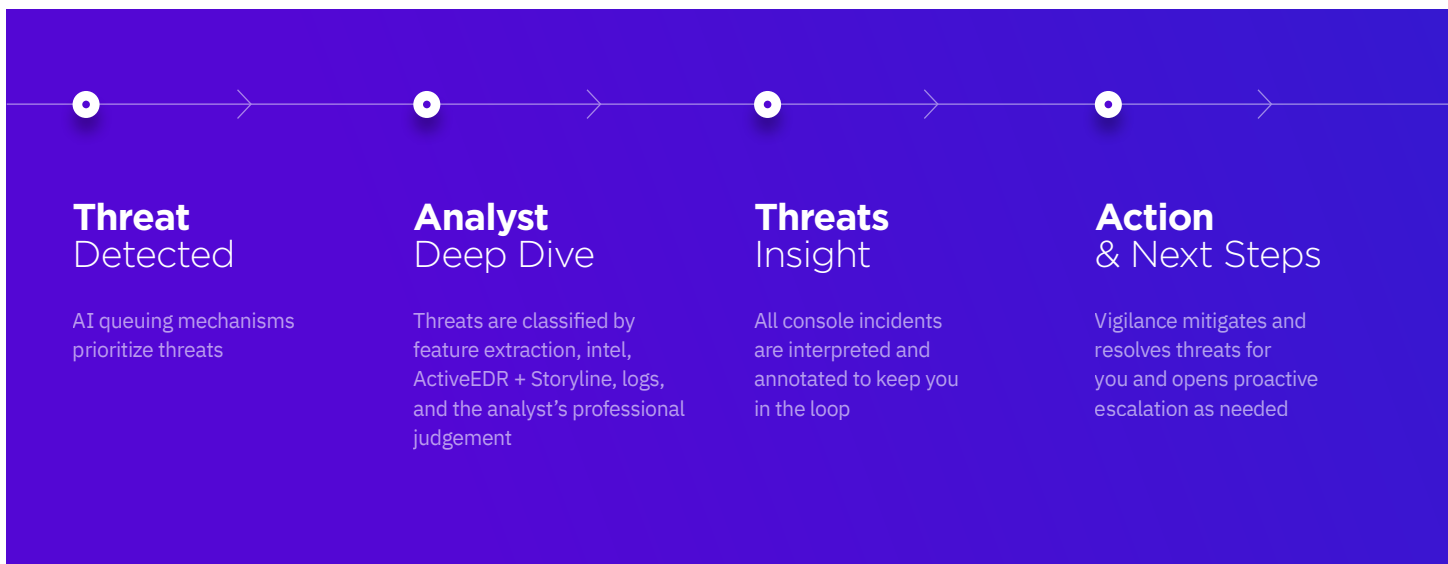

Vigilance MDR empowers customers to focus only on the incidents that matter making it the perfect endpoint add-on solution for overstretched IT/SOC Teams.

## Laat hackers uw bedrijfscontinuïteit niet in gevaar brengen!

Cyberaanvallen bedreigen privacy, bedrijfskritische data, de reputatie en andere 'kroonjuwelen' die cruciaal zijn voor de continuïteit van uw organisatie. De vraag is allang niet meer 'of' uw organisatie aangevallen wordt, maar 'wanneer' uw organisatie (weer) aangevallen wordt. Het is essentieel om cyberaanvallen te voorkomen en de gevolgen van cyberaanvallen tot een minimum te beperken. Het feit dat u deze pdf leest, toont dat u dat belang inziet.

Vanwege de grootte, de complexiteit en de diversiteit van moderne cyberaanvallen is een multidisciplinaire aanpak nodig. We helpen u graag met praktische adviezen en effectieve oplossingen om deze aanpak te realiseren.

Met de juiste trainingen, [tools](#) en support helpen wij u hackers het hoofd te bieden en er voor te zorgen dat alles wat voor uw organisatie van waarde is, beschermd blijft.
