REAQTA

Experience Security Without Complexity

Corporate Overview

ReaQta is a play on the latin words re acta which is "to react".

ReaQta is Europe’s top-tiered A.I. Endpoint Security Platform, built by an elite group of cyber-specialists and machine learning researchers with extensive backgrounds in classified government intelligence and operations.

We offer our clients powerful, yet easy-to-manage security solutions so that the most sophisticated threats can be remediated in the fastest way possible.

CORPORATE OVERVIEW

To balance the asymmetry between attackers and defenders, security teams must operate efficiently and in real-time, without raising operational complexity. Our A.I. driven approach provides unique discovery capabilities, combined with elevated automation, to increase team efficiency and reduce the time to detect all sophisticated cyber-threats."

ReaQta Quick Facts

- 2020 Behavioral Cyber Threat Detection Technology Innovation Award **Frost & Sullivan**
- Awarded Seal of Excellence by **EU Commission**
- Multisandbox member on **Google's VirusTotal**
- Top 10 Cybersecurity Providers in Europe 2018, 2019 by **Enterprise Security**

NanoOS™ Technology

ReaQta's novel approach features the world's first and only NanoOS™ tech that acquires proprietary security information at the deepest levels of the Operating System, completely isolating it from attackers so that it remains invisible to malware.

ReaQta-Hive Key Capabilities

- Continuous learning A.I. detects and responds autonomously in real-time to new and unknown threats
- Multi-layered defense includes signature, heuristic and behavioural techniques
- Secures isolated air-gapped infrastructures, cloud and hybrid environments
- Maps threats against the MITRE ATT&CK® framework for ease of analysis
- Complete threat hunting capabilities with over 120+ parameters and 70+ behaviours
- Seamlessly integrates with SIEM and SOAR

PRODUCTS

REAQTA-HIVE

A.I. powered Endpoint Security Platform

Rapidly contextualizes, detects, responds and protects organizations from breaches in a single elegant console. Ensures complete visibility from endpoint to infrastructure and can be easily deployed either on cloud or on-premise.

REAQTA-EON

Cloud-delivered NGAV+

Surpasses legacy AV solutions to ensure complete threat endpoint protection. Designed with the latest A.I. / machine learning strategies to stop attackers in real-time. Quarantines unwanted malware for further investigation and retrieval.

SERVICE

REAQTA-MDR

24x7 Managed Detection & Response

Ensures 24x7 round-the-clock threat monitoring and real-time incident remediation by ReaQta's Security Response team. Initiates proactive threat hunting, with management and technical reports delivered within hours.

Samen uw organisatie weerbaarder maken

Laat hackers uw bedrijfscontinuïteit niet in gevaar brengen!

Cyberaanvallen bedreigen privacy, bedrijfskritische data, de reputatie en andere ‘kroonjuwelen’ die cruciaal zijn voor de continuïteit van uw organisatie. De vraag is allang niet meer ‘of’ uw organisatie aangevallen wordt, maar ‘wanneer’ uw organisatie (weer) aangevallen wordt. Het is essentieel om cyberaanvallen te voorkomen en de gevolgen van cyberaanvallen tot een minimum te beperken. Het feit dat u deze pdf leest, toont dat u dat belang inziet.

Vanwege de grootte, de complexiteit en de diversiteit van moderne cyberaanvallen is een multidisciplinaire aanpak nodig. We helpen u graag met praktische adviezen en effectieve oplossingen om deze aanpak te realiseren.

Met de juiste trainingen, tools en support helpen wij u hackers het hoofd te bieden en er voor te zorgen dat alles wat voor uw organisatie van waarde is, beschermd blijft.
